Level One - Rocket Sight Words - Activity Book

The activities in this book are designed to give children the opportunity to master this collection of words. There are twenty sight words in Level One.

The more opportunities children are given to write and read these words, the more likely they are able to master them. Daily practice of reading and writing of these words is encouraged to give children the best chance of building their bank of sight words.

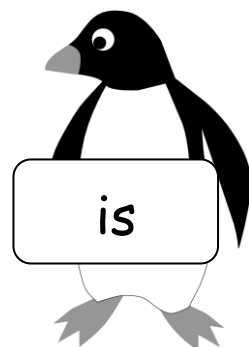

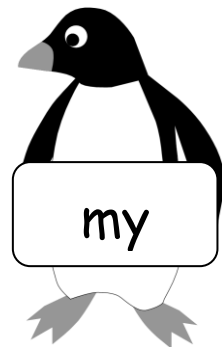

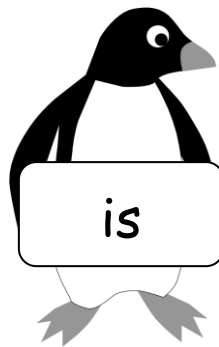

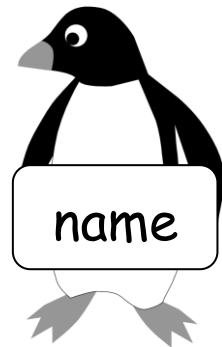

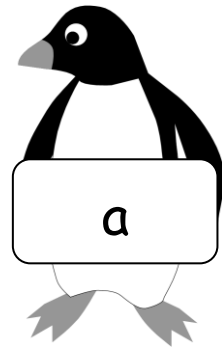

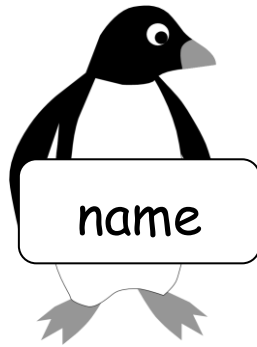

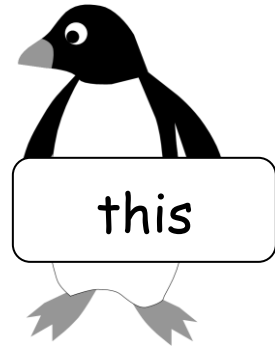

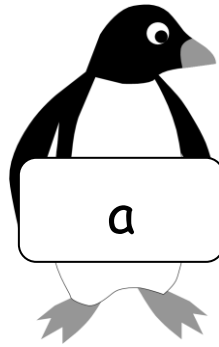

There are two pages for each Rocket Sight Word List and a revision page at the end.

Hope your children enjoy these activities!

Kind regards,
The BORN2READ Team.

**BORN
2 READ**

The logo consists of the words "BORN" and "2 READ" in a bold, rounded, sans-serif font. The word "2" is significantly larger than the other characters. Two cartoon children, a girl with pigtails on the left and a boy with a bow on the right, are peeking over the top edge of an open book that is integrated into the design between the two lines of text.
